Article Numbers: 720150, 720149, 720147

Safety Instructions:

- Clamp has a clamping force of up to 9000 N. Injuries can occur if used incorrectly.
- Only use the clamp for the intended materials and applications.
- Keep hands and body parts away from the clamping surface to avoid crushing.
- Keep small parts and other objects away to avoid the risk of entrapment or injury.
- Clamp is heavy (weight: 12.66 kg); use on a stable, level surface.
- Only use the clamp with the intended components.
- Ensure that the clamp is in a stable position before applying tension.
- Observe environmental conditions; do not use the clamp in extreme temperatures or damp conditions.
- If the clamp is damaged, take it out of operation immediately.
- Mount and use the clamp properly to prevent slipping or breaking during use.
- Wear safety goggles to prevent eye injuries from flying parts.
- Work on stable surfaces to avoid wobbling and instability.
- Check the clamp regularly for wear or damage to avoid hazards.
