Safety Instructions:

- Do not use the lever clamp above the specified clamping force of max. 8500 N to avoid the risk of injury if used incorrectly.
- Take care when using to avoid crushing. Risk of injury due to the clamp slipping when a lot of force is applied.
- Ensure that the workpiece is correctly positioned and firmly clamped to avoid crushing.
- Always ensure firm and even positioning before use and use on a stable surface to prevent tipping or slipping.
- Keep out of the reach of children. Keep children and pets away during use to avoid the risk of suffocation or injury.
- Carry out regular visual inspections for damage or signs of wear.
- Only use the lever clamp for its intended purpose and in accordance with the manufacturer's instructions.
- Do not use under excessive loads that could affect safety to avoid breakage or failure of the product.
- Always wear safety gloves to avoid injury during handling.
- Improper handling may result in injury due to slipping or breakage.
