Article Numbers: 720217, 720216, 720215, 720213

Safety Instructions:

- Caution: Risk of injury due to incorrect handling or overloading the clamp. Only use the clamp in the intended manner and observe the maximum permissible clamping force of 2000 N.
- Keep children away from working with this clamp and store it out of reach, as the clamping force is up to 2000 N, which can cause injury.
- Check the clamp regularly for damage to ensure safety.
- The gear clamp must be positioned securely on the work surface to prevent it from slipping.
- Avoid contact with the spindle, handles and moving parts during operation to prevent injury.
- Do not use the quick-release button under pressure and ensure that no hands or body parts are in the danger zone.
- When used in conjunction with round, pointed or sharp parts, ensure that they are securely fixed to prevent them from slipping.
- Ensure that processing is only carried out by adults to avoid injury.
- Risk of suffocation due to improper use of the tensioning cleat.
- Risk of crushing due to improper use or abrupt release of the tension.
- Observe the safety instructions for use in accordance with the applicable standards.
