Safety Instructions:

- This clamp is not suitable for applications in which it is used to stop movements.
- Keep children away from the clamp to avoid injuries caused by improper handling or the risk of choking on small parts.
- Before use, ensure that all parts are properly assembled and functional and read the operating instructions.
- Improper use can lead to injuries, especially with high clamping forces.
- Only use the clamp for the intended applications and avoid overloading.
- Keep hands and clothing away during tensioning to avoid injury.
- Avoid unnecessary pressure on the clamping elements to prevent the material from failing.
- Make sure that the surface is dry when using the cork pads, as they can slip when damp.
- It is necessary to check the stability and integrity of the parts before use.
- For indoor use only and avoid use in high temperatures or extreme conditions.
- Do not use near naked flames or heat sources.
- Use suitable protective equipment (e.g. protective gloves).
