Safety Instructions:

- Caution: High clamping force of up to 6,000 N, risk of injury if used incorrectly, not suitable for children.
- Use only by persons who are trained in the safe handling of tools.
- Wear recommended personal protective equipment, such as gloves and safety goggles, to avoid injury.
- Check the tool for damage before each use and do not use if the pressure plates are damaged or worn.
- Do not use the product beyond the permissible clamping force; do not exceed the maximum clamping force.
- The pressure plates must be mounted correctly and securely; check that they are firmly seated before use.
- Keep children away from the appliance to avoid injury.
- Not suitable for use at extreme temperatures or in damp or wet environments.
- When releasing the clamp, prevent it from snapping back abruptly.
- Keep hands and body parts away from moving parts to avoid crushing.
- Read and observe the safety instructions and instructions for use on the packaging.
- Before use, ensure that all parts are intact and undamaged.
- Ensure that the user knows how to use the clamp correctly.
- Use only by authorised persons.
- In the event of damage or malfunctions, do not use the product and contact the manufacturer.
