Safety Instructions:

- Use suitable personal protective equipment, in particular safety goggles and gloves, to avoid injury.
- Keep fingers and hands away from the blade during operation to avoid cuts.
- Only use the product for the intended materials and thicknesses in accordance with the manufacturer's instructions.
- Before use, check that the saw blade is properly mounted and secured.
- Make sure that no foreign objects get between the saw blade and the workpiece.
- Do not use in the vicinity of flammable materials or liquids.
- Keep the product out of the reach of children.
- Keep the work area clean and free of obstacles to avoid accidents.
- Do not use near water or damp environments to minimise the risk of electric shock.
- Only use the saw blade with suitable machines and in accordance with the manufacturer's instructions.
- Check the saw blade regularly for damage or wear and replace it if necessary.
- Ensure that the workpiece is securely fixed before sawing.
- Read the manufacturer's instructions carefully before first use.
- Only use the saw if you are familiar with the safety functions and handling of the device.
