Article Numbers: 725024, 725023, 725022, 725021, 725019, 725018

Safety Instructions:

- Use suitable personal protective equipment, in particular safety goggles and a respirator, to protect yourself from dust and particles and to avoid dust inhalation.
- The extraction drill must be used and regularly maintained in accordance with the manufacturer's instructions to ensure effective dust extraction and proper functionality.
- Take suitable measures to avoid electric shocks, especially in damp environments, and do not drill in damp materials.
- Do not use the appliance in the vicinity of flammable materials or gases to avoid the risk of fire.
- Ensure that the work area is well ventilated to prevent the accumulation of dust and vapours.
- Instruction and training in the safe use and handling of the product is required; the device is suitable for use by trained persons.
- Keep the appliance out of the reach of children and ensure that it is correctly connected to enable effective removal of drilling dust.
- Observe the health risks posed by drilling dust in accordance with TRGS 900 and take appropriate protective measures.
- The appliance must be properly installed and maintained to prevent overheating, malfunctions and accidents.
