Safety Instructions:

- Wear protective equipment such as safety goggles, hand protection and hearing protection during use.
- Always keep the drill out of the reach of children, as it is not suitable for use by children.
- Before use, ensure that the drill bit is in perfect condition and is not damaged.
- Ensure that the drill bit is correctly inserted in the SDS-plus system to prevent it from falling during use.
- Do not work in the vicinity of flammable or explosive materials.
- Avoid use in damp environments to minimise electrical hazards.
- Read and follow the operating instructions carefully before commissioning.
- Check the work area and keep it free of obstacles and uninvolved persons.
- Be careful not to drill with excessive weight; adhere to the specified values to avoid overloading.
- Wear suitable goggles to protect your eyes from dust and splinters while drilling.
- It should only be used by adults or under adult supervision.
- Store the appliance in a safe place when it is not in use and clean it thoroughly after use.
- Keep the drill away from water-bearing or electrical lines to avoid the risk of injury.
- Ensure that the drill is only used for its intended purpose to prevent accidents.
- Be careful when working with the hammer drill, especially with falling parts, and protect yourself from possible injury.
- Always follow the safety information and instructions to ensure safe use of the product.
