### Safety Instructions:

- Electrical connections may only be carried out by qualified personnel.
- Avoid overloading to prevent overheating and the risk of fire.
- Use outdoors only with appropriate protection (IP44) and protect from extreme weather conditions.
- Protect the cable and plug from water and moisture, do not use near water and check for damage.
- Observe the safety instructions regarding the RCDs and check that they are functioning correctly before use.
- Check the housing regularly for cracks or damage.
- Protected against foreign bodies and splash water, but not suitable for continuous use in extreme weather conditions.
- Check electrical connections regularly for damage.
- Overloading the sockets can lead to a short circuit, so do not exceed the maximum load.
- Use only for the intended purpose and in accordance with the instructions supplied.
- Ensure that the appliance is properly earthed before use.
- Only operate in the specified voltage ranges.
- Avoid risk of electric shock and damage due to improper use and non-compliance with safety regulations.
- Follow the manufacturer's instructions before installation and use.
