Safety Instructions:

- Risk of suffocation due to improper use of the sockets and handling of small parts - keep out of the reach of children.
- Risk of electric shock due to improper connection of the CEE plug.
- Do not use the distributor in wet or damp environments, even if it is splash-proof.
- Installation and maintenance only by qualified specialists.
- The electrical connections must be checked regularly and protected by circuit breakers.
- Read the instructions for use carefully before first use.
- Only use sockets with suitable plugs and do not exceed the current rating (16 A).
- For outdoor use, the product must be installed in a sheltered location to avoid exposure to the weather.
- Avoid direct contact with water despite the splash-proof design (IP54).
- Carry out regular inspections and maintenance in accordance with the applicable regulations.
