

Product Safety Information

Rechargeable cell maxE 1,2 V 2500 mAh R6-AA-Mignon HR6 4 4pcs/blister ANSMANN

Manufacturer/Responsible Person: Ansmann AG, Industriestr. 10, 97959 Assamstadt, Deutschland
E-Mail: info@ansmann.de

Please note the technical data of the products!

Article Numbers: 726215, 726211

Safety Instructions:

- Choking hazard due to small parts, especially for children: The product is unsuitable for children and should be kept out of their reach.
- Beware of the risk of short circuits: Battery cells should be protected from damp conditions and physical impact.
- Do not dispose of battery cells in a fire to avoid explosions or dangerous leakage.
- Use suitable chargers to charge the battery cells to prevent overcharging and overheating.
- After use, dispose of battery cells in accordance with local regulations to prevent environmental pollution.
- Do not store battery cells near flammable materials.
- Avoid long storage periods under extreme temperatures to prevent damage.
