### Safety Instructions:

- Always wear suitable personal protective equipment (e.g. safety goggles and hearing protection) during use to avoid injury.
- Only use the product for its intended purpose and observe the operating instructions.
- Check for visible damage before use and replace immediately if damaged.
- Keep the work area clean, well lit and free of obstacles to avoid accidents.
- Ensure that nobody is in the danger zone while you are using the hammer drill.
- Secure long hair and loose clothing to avoid danger from rotating parts.
- Avoid contact with water or other liquids to prevent electrical hazards.
- The product must not be used in the vicinity of explosive or flammable materials.
- Ensure that the workpiece is securely fixed before you start drilling.
- Not suitable for children - keep out of reach of children to avoid risk of injury.
- The product should only be operated by qualified personnel.
- Ensure safe handling during use to avoid injury.
- Do not touch any rotating parts during operation.
- Hold the drill firmly to prevent it from slipping.
- Avoid drilling into materials that could release harmful substances (e.g. asbestos).
- Ensure that the drill bit is correctly clamped in the machine to prevent it from falling.
- Choking hazard due to loose parts and small parts.
