Safety Instructions:

- Check the clamping force and ensure that it is not exceeded (maximum 22000 N).
- Only use the heavy-duty clamp on stable and level surfaces.
- Keep hands and body parts away from the clamp when it is under tension.
- If the toggle or other connections are damaged, do not continue to use the product.
- Observe safety precautions when handling the trapezoidal threaded spindle and the toggle.
- Store the clamp in a dry place to prevent corrosion.
- Use with caution to avoid crushing or cutting injuries.
- Only use the clamp for the intended applications to avoid overloading.
- Carry out regular checks for wear and damage.
