Safety Instructions:

- Observe the maximum load per drawer: 75 kg or 200 kg depending on the version, to prevent damage or tipping over.
- Avoid pulling out drawers completely at the same time, always load drawers evenly to prevent tipping.
- Place the cabinet on a stable, level surface to prevent it from tipping over.
- Keep the cabinet away from moisture and clean immediately if necessary to prevent corrosion.
- Use the central locking system to prevent unauthorised access and check its function regularly.
- Do not trap any body parts when closing the drawers.
- Only use the cupboard upright, do not use it as a work surface or stairs.
- Check regularly for damage, check drawer mechanism and central lock.
- Keep children away from the cupboard to avoid the risk of injury from heavy drawers.
- Keep the cabinet away from heat sources and direct sunlight to keep the surface coating intact.
- In the event of improper use or installation, be aware of the risk of injury and ensure proper use.
- Drawers are secured against tipping and pulling out, observe safety precautions.
