Safety Instructions:

- Emergency stop switch to ensure safety during operation. The emergency stop switch must be accessible at all times.
- Attention: Noise level during operation can be up to 64 dB(A). The appliance can generate noises of up to 64 dB(A) under high load and when cutting cardboard. Note: Noise can lead to reduced hearing ability if work is carried out in the vicinity of the appliance for long periods.
- Provide safety instructions for correct handling of the machine.
- Only suitable for use in professional or industrial applications.
- The machine must be operated on a stable surface to prevent it from tipping over.
- Caution: Choking hazard due to small parts that could fall off during operation.
- Caution: High-voltage devices that can cause electric shocks if used incorrectly.
- Provide for dust: When using with an integrated connection for dust extraction, appropriate filters should be used.
