Safety Instructions:

- Only use the product for its intended purpose and install it in accordance with the enclosed installation instructions.
- Regularly check the proper condition, stability and safety mechanisms of the product.
- Keep small parts away from children and prevent children from using the cupboard as a plaything to avoid the risk of suffocation and accidents.
- Pay attention to the maximum load capacity of the shelves (max. 50 kg) and avoid overloading to prevent stability problems.
- Keep the product away from sources of fire, water, open flames and aggressive chemicals to prevent damage and rust formation.
- Use the security cylinder lock with 2 keys to prevent unauthorised access.
- When opening the doors, make sure that the cabinet does not tip over and that neither hinged doors are blocked nor fingers are trapped.
- Ensure safe storage of heavy or hazardous materials and install sound-absorbing rubber bumpers to reduce noise emissions.
- The product is not suitable for children; edges and surfaces may be sharp.
- Ensure that the cabinet is standing on a stable, level surface to prevent it from tipping over.
- Only allow adults to set up and assemble.
