Article Numbers: 655924, 655923, 655922, 655921

Safety Instructions:

- Make sure it is stable to prevent it from tipping over and the presentation wall should not be set up on unlevelled or unstable surfaces.
- Use the height adjustment carefully to prevent injuries.
- Ensure that the castors are fully locked to prevent the presentation wall from rolling away unintentionally.
- When mounting the panel and during assembly, ensure that no fingers are trapped.
- The moderation wall should only be used for its intended purpose to avoid damage or injury and should not be used as a climbing frame or for riding.
- Observe the maximum height during transport and installation.
- Keep the product out of the reach of children and use only by adults or under adult supervision.
- Read the instructions carefully before installation and include clear instructions to avoid improper use.
- Take care during transport due to the heavy weight, as injuries may occur.
- Do not load the product beyond the maximum load limit and ensure that the connections are secure and stable before using it.
