Safety Instructions:

- Not suitable for children under 3 years due to choking hazard from small parts.
- The presentation wall must not be used by children without supervision.
- For safe use, ensure that the height adjustment and mobility do not cause it to tip over. The panel height must be adjusted in accordance with the instructions.
- Ensure that the wall is on a level and stable surface to prevent it from toppling over.
- Regularly check the stability of the wall and the connections to prevent tipping.
- Ensure that the panel is securely fastened during installation to prevent injuries from falling.
- Avoid excessive force when attaching materials to the board to prevent damage.
- Only use the paper hooks supplied to prevent the paper from falling.
- Ensure that no fingers are trapped during assembly and disassembly.
- The castors are lockable and should be locked when not in use to prevent movement and ensure safe movement.
- When used outdoors, the board should be protected from rain and moisture, as the materials may be affected.
- In the event of improper use or overloading, observe the upper weight limit to prevent breakage of the components.
