Safety Instructions:

- Use castors carefully and ensure that they are properly locked to prevent them from rolling away and falling.
- Do not fix directly to the wall to avoid damaging the surface.
- Information on installation and safety should be provided in understandable language.
- Check the safety and stability of the wall before use.
- Do not place excessive loads on the wall to prevent it from tipping over.
- For safe transport, only lift the wall using the handle or frame provided.
- Children should be supervised by an adult when they are near the wall.
