Safety Instructions:

- Avoid the risk of falling due to improper handling and secure the hinged wall when erected to prevent it from falling over.
- Make sure there is sufficient space around the wall during transport.
- Ensure that the castors are lockable and regularly checked for proper functioning.
- Assembly should be carried out in accordance with the instructions for use to ensure correct stability and avoid injury.
- Avoid using the wall near water or damp environments to prevent corrosion.
- Avoid using sharp objects to attach papers to prevent damage to the felt cover.
