### **Safety Instructions:**

- Observe the maximum working height of 2.9 m to avoid the risk of falling.
- Only use for the intended maximum load capacity of 200 kg/m<sup>2</sup>.
- Always erect the scaffolding on a stable and level surface.
- Before use, ensure that all safety elements are correctly attached.
- The scaffolding may only be used outdoors in calm weather conditions.
- Do not load the scaffolding beyond the permitted number of persons and weight.
- Keep the working area under the scaffolding free of obstacles and people.
- Regularly inspect the scaffolding for damage and wear.
