Article Numbers: 714584, 714583, 714582, 714581, 714580

Safety Instructions:

- Wear protective equipment (e.g. eye and ear protection and protective gloves) when working with the circular saw blade to avoid injury.
- Only use the saw blade for its intended purpose: suitable for aluminium and similar materials, not for iron or steel.
- Ensure that the circular saw blade is correctly mounted before the machine is put into operation to prevent slipping and accidents.
- Operate the machine in accordance with the manufacturer's instructions and check and maintain it regularly to avoid unsafe conditions.
- Do not work with damaged or worn saw blades, replace them immediately and check the blade for damage.
- Switch off the machine and disconnect it from the power supply before changing the blade or carrying out maintenance work.
- Ensure a safe working environment so that the work area is free of obstacles and other people.
- After use, clean the saw blade thoroughly and store it safely to prevent corrosion.
