Safety Instructions:

- Safe use only with suitable hand tools or tools that meet the technical requirements.
- Check thoroughly for damage before use. Replace damaged bit tips immediately.
- Keep the work area free of obstacles to avoid tripping hazards.
- Take care not to overload the bit. Avoid excessive contact pressure.
- Wear protective clothing and eye protection to avoid injury, including safety goggles and gloves.
- Ensure that the tool is properly clamped before use to prevent slipping.
- Only use the bit for the intended applications and observe the maximum torques.
- Avoid contact with moving parts during operation to prevent injury.
- Keep the product out of the reach of children. Not suitable for children under 3 years of age.
- Take suitable safety precautions and avoid overheating when using electrical tools.
- Do not use in the vicinity of flammable materials.
- Ensure that the product has been designed and manufactured in accordance with the general safety requirements.
- The product should only be used by persons who are familiar with its operation.
