Safety Instructions:

- Keep the product out of the reach of children as it contains small parts. Not suitable for children under 3 years of age: Choking hazard due to small parts.
- Only use the product in accordance with the manufacturer's instructions to avoid accidents and injuries.
- Regularly check the integrity of the product, especially the torsion mould, to prevent premature wear. Ensure that the torsion mould is not overstretched.
- When using machines, ensure that the product is correctly inserted and secured. Suitable for manual and machine operation, but pay particular attention to safe use when using machines.
- In the event of a product safety recall, follow the manufacturer's instructions immediately.
- Caution when using with power tools: risk of electric shock if handled incorrectly. Observe safety information when using the bit with electrical appliances.
- Carefully read and observe the safety and installation instructions before use.
- Ensure that suitable personal protective equipment such as gloves and safety goggles are worn during operation.
- It is recommended to store the product in a dry place and not to use it near water or humid environments.
- Use only for the intended purpose, avoid excessive heat or pressure during operation.
- Keep out of reach of children and ensure appropriate storage to minimise the risk of injury.
