Safety Instructions:

- Make sure that the cabinet is placed on a stable and level surface to prevent it from tipping over.
- Do not exceed the maximum load per drawer: 75 kg for 75 mm high drawers and 200 kg for 200 mm and 300 mm high drawers.
- Open and close the drawers carefully and use suitable lifting techniques for heavy drawers to avoid injury.
- Use the double pull-out lock and check regularly for correct function to ensure stability and safety.
- Avoid placing heavy objects on the top of the drawer unit.
- The drawer cabinet may only be assembled and used by qualified persons.
- Ensure that no children have access to unsuitable accessories or tools in the drawers.
- Use suitable partitioning materials for safe storage and protection of items in the drawers.
- Provide and observe instructions for use and safety information in understandable language.
- Before use, ensure that all screws are firmly tightened and the cabinet is correctly assembled.
