Safety Instructions:

- Not suitable for children under 36 months. Keep children away to avoid injury.
- Observe maximum load capacity: 75 kg per drawer, 200 kg per drawer. Avoid overloading to ensure structural stability and safety.
- Use the double pull-out stop for a secure stand. Make sure that it functions correctly to prevent several drawers from being pulled out unintentionally.
- The drawer cabinet must be placed on a stable, level surface to prevent it from tipping over.
- Protect the product from moisture and water sources to avoid the risk of corrosion.
- Read the operating instructions carefully and assemble the cabinet correctly to ensure safety.
- When using the appliance, store heavy objects correctly and use lifting and carrying techniques to avoid injury.
- Ensure regular maintenance and inspection of the drawers to ensure proper functionality.
- Do not use the drawer unit as a climbing aid and store heavier objects safely underneath.
- Avoid crushing by opening and closing the drawers carefully and in a controlled manner.
- Carry out safety checks on the drawer dividers to ensure safe use.
- Make sure that the cabinet is stable and cannot tip over to prevent it from tipping over. If necessary, anchor it to the floor or wall.
