Safety Instructions:

- Ensure that the locker is placed on a stable and level surface to prevent it from tipping over.
- Keep out of the reach of children to avoid the risk of choking on small parts.
- Use the locker only for the intended and stored items; avoid overloading.
- Carry out regular inspection and maintenance work in order to recognise mechanical damage, corrosion or functional restrictions in good time.
- Follow the manufacturer's instructions for installation and safe use to avoid accidents.
- Use the locking systems properly with the keys provided to prevent unauthorised access.
- Keep the locker in a dry and well-ventilated area to prevent rust and mould growth.
- Include clear safety information and instructions to ensure safe use.
- Ensure that personal items are stored securely in the compartments provided to prevent loss or theft.
- Not suitable for children under 12 years of age.
- Protect the locker from direct sunlight and extreme temperatures to prevent damage to the coating and material.
- The product must not be used near water or in damp environments to avoid electrical hazards.
- Avoid the use of harsh or aggressive cleaning agents.
- Observe the attached warning notices during assembly and installation.
- Before use, ensure that all doors and locks are working properly.
- Regular inspection of the coat rails and hooks to guarantee stability.
- Ensure that the locking system is only used for its intended purpose.
- Do not load the product with more weight than stated in the technical specifications.
- If there is visible damage, take the product out of operation and do not use it.
