Safety Instructions:

- The locker must be properly installed and securely placed in the room to prevent it from tipping over.
- The ventilation openings at the back and sides must not be blocked to ensure optimum air circulation and prevent mould.
- Use the locker only for its intended purpose and in accordance with the manufacturer's instructions to avoid injury and structural damage.
- The use of the cylinder lock should be checked regularly to ensure the security of personal belongings and to prevent unauthorised access.
- Avoid overloading the locker, especially the coat rail and hooks, to minimise damage and the risk of injury.
- To avoid the risk of fire, do not store any flammable or hazardous materials in the locker.
- Regular inspection of the spindle for mechanical damage, stability and functionality is necessary.
- Make sure that no heavy or sharp-edged objects are placed in the locker to avoid damage and injury.
- Keep the locker away from moisture, direct sunlight and extreme temperatures to prevent damage.
- Children should only use the locker under supervision. The product is not suitable for use by children under the age of 12.
- Keys and locks of the locker should be kept in a safe place to prevent unauthorised access.
- Product information and installation instructions must be observed to ensure the safety of the user.
- Ensure that all moving parts, especially helmet holders and valuables boxes, function correctly to prevent injury and loss of valuables.
- Avoid using or storing the locker in damp environments to minimise rust and corrosion.
- The locker should be cleaned regularly and kept free of dirt to ensure optimum utilisation.
