Safety Instructions:

- Not suitable for children as it contains small parts. Warning: Not suitable for children under 3 years of age as small parts pose a choking hazard. Keep small parts out of the reach of children.
- Provision of safety information for the safe use of the product.
- Handle the product with care to avoid injury.
- Regularly check the locker for visible damage and corrosion. If damage is detected, take the locker out of operation immediately.
- Stable location of the locker to prevent it from tipping over. Mention the stable base repeatedly.
- Ventilation openings must not be blocked to prevent mould and odours from forming. Regular inspection and ventilation necessary.
- Only use the locker for its intended purpose in order to avoid damage and risk of injury.
- Ensure that children do not have unsupervised access to the locker.
- Observe the manufacturer's instructions for using the cylinder lock and check the locks regularly to prevent unauthorised access.
- Avoid direct sunlight to minimise material damage caused by UV radiation.
- Do not use chemical cleaning agents or abrasive materials. Keep clean and dry to prevent corrosion.
- Dispose of defective or damaged parts in accordance with local regulations.
- The locker is not suitable for the safe storage of hazardous substances.
- Do not store any flammable materials or valuables in the locker. Consider additional safety measures.
- Ensure the use of suitable materials in accordance with the safety regulations for firefighting equipment.
- Regular inspection and maintenance of the locker is recommended to ensure safety and functionality.
- Ensure that the doors are ventilated to prevent mould growth and do not use the locker as a play area if children are using it.
- Users should keep the cylinder key in a safe place.
- Sharp edges on the construction can cause injuries.
