Safety Instructions:

- Use only for the intended purpose to minimise safety risks.
- There is a risk of injury if used incorrectly.
- Check the structure regularly for stability and ensure that the locker is stable and correctly mounted to prevent wobbling or tipping over.
- Keep the locker dry to prevent corrosion or corrosion damage.
- Avoid placing heavy objects or overloading the compartments beyond the maximum load capacity to prevent structural damage.
- The use of harsh or aggressive cleaning agents should be avoided in order not to damage the coating or interior walls.
- Observe the correct lifting techniques when handling heavy objects and avoid pinching body parts during use.
- Ensure that the locker is properly installed and secured to prevent it from falling over.
- Only use the helmet holder for helmets and ensure that it is securely fastened and regularly checked for load-bearing capacity.
- The helmet holder must be securely fastened and no heavy objects must be placed on it.
- Carry out regular inspections for damage or signs of wear to ensure safety.
- Make sure that all sliding hooks are properly secured to prevent objects from falling.
- The door must be properly locked to prevent unauthorised access.
- Avoid storing flammable materials in the locker in order to comply with fire safety regulations.
- Include clear instructions and safety information in a language that is easy to understand.
- Wear personal protective equipment during assembly and transport and ensure that the locker is placed on a stable surface.
- Take particular care when using the appliance by children and vulnerable persons.
