Safety Instructions:

- Store safely for children and people in need of protection to prevent injuries.
- Do not exert excessive pressure on components to avoid deformation.
- Only design and manufacture products in accordance with the general safety requirement before they are placed on the market.
- Always lock the door securely to prevent unauthorised access.
- Carry out regular maintenance and inspection of all parts to ensure functionality and safety.
- Secure locking of compartments to prevent loss of personal belongings.
- Do not block the ventilation openings to ensure optimum air circulation and prevent mould.
- Keep all parts securely mounted and fixed to prevent injury.
- Follow the instructions for use to avoid injury and damage.
- Do not use sharp or pointed objects in the locker to avoid injury and damage.
- Keep out of reach of children to prevent the risk of choking on small parts.
- Communicate safety instructions clearly and comprehensibly.
- Place the locker on a stable, level surface to prevent it from tipping over.
- Avoid the use of aggressive cleaning agents to protect surfaces.
- Use of the lock-secured door for safe storage.
- If used by children, use only under supervision.
- Ensure compliance with storage regulations for protective equipment.
- Only use the helmet holder for its intended purpose and check its safety regularly.
- Keep the locker clean and free of flammable material.
- Ensure compliance with the DIN 14092 safety standard.
