Safety Instructions:

- Observe the correct assembly and usage instructions before use.
- Mount the locker stably and securely on a flat surface to prevent it from falling over.
- Do not block the ventilation openings to ensure sufficient air circulation and hygiene.
- Avoid contact with water and damp conditions to prevent corrosion.
- Do not overload to maintain structural integrity and stability. Max. Observe maximum weight.
- Use the locker in accordance with the manufacturer's instructions; avoid improper use.
- Keep the cylinder lock and key in a safe place; do not allow children access.
- Ensure that doors are properly closed and locked to prevent unauthorised access.
- Carry out regular inspections for damage and wear; replace weak or damaged parts immediately.
- Prevent the storage of highly flammable or sharp materials in the locker to minimise the risk of fire and injury.
- Sharp edges and corners: handle with care to avoid injury.
- To avoid injury, do not allow children to use the locker as play equipment.
- The steel doors have locking mechanisms that must be checked regularly to prevent unauthorised opening.
- Take care when using the locker for protective equipment to avoid the risk of crushing.
- Avoid danger of suffocation: Prevent improper storage of small parts in the compartments and use as a toy.
- Use by adults only; children should not play unsupervised near the locker.
- Ensure provision of clear instructions and safety information.
