Safety Instructions:

- Do not overload to ensure the stability and safety of the Sprind.
- Observe the maximum load capacity of the hook rails and shelves to avoid damage.
- Regular maintenance and checking of the locks for functionality.
- Set up securely to prevent tipping or slipping.
- Regularly check the stability and integrity of all connections to prevent accidents.
- Keep ventilation openings clear for optimum air circulation.
- Do not use as a climbing frame; the construction is not designed for this purpose.
- Keep the product out of the reach of children as it is not suitable for them.
- Do not store any flammable or highly flammable materials in the locker.
- Do not use the product in a damp environment to avoid rust and corrosion.
- Only authorised persons should operate cylinder locks.
- Keep the locker clean regularly and check for mechanical damage.
- If in doubt, contact the manufacturer.
- Provide and observe the specified safety information and instructions.
- Avoid sharp objects so as not to damage coatings.
- Avoid mould formation and corrosion by keeping dry.
