Safety Instructions:

- Recommended sitting time: maximum 8 hours to prevent health problems caused by prolonged sitting.
- Maximum load capacity should not exceed 110 kg to avoid structural risks. Not suitable for persons over 110 kg.
- All adjustable parts must be properly adjusted to avoid injury, especially the mechanical lock should be in the foremost position.
- The removable seat cover and cushion should be cleaned regularly to ensure hygiene.
- Avoid excessive moisture so as not to damage the perforated plastic backing.
- Safety double castors are only suitable for carpeted floors and should be checked regularly to ensure safe rolling.
- Not suitable for children under 3 years of age due to small parts and possible crushing hazards.
- Make sure that the chair is only used with a maximum load of 110 kg and check the mechanism regularly to ensure that it is working properly.
- Follow the instructions for use, particularly with regard to adjusting the back pressure and the ergonomic support provided by the 560 mm high backrest.
- The instructions for safe use and all warnings must be included in understandable language.
