### Safety Instructions:

- Observe the maximum load capacity of 80 kg. Do not load above the maximum load capacity.
- Do not overload: Observe a load of 600 kg to avoid damage and hazardous situations.
- Product heavy: Take care when lifting.
- Keep out of the reach of children to avoid the risk of injury.
- Ensure that the carrying pole is used correctly. Ensure that the carrying pole and the drop handles are in good condition before transport.
- Take care not to jeopardise the storage box through mechanical damage or contact with sharp/corrosive substances.
- Protect the open-fronted storage box from extreme temperatures and moisture to ensure its longevity.
- Only transport and use the open-fronted storage box in accordance with the specified load capacities (maximum 80 kg) and only for its intended purpose in order to avoid injury or damage.
- Avoid overloading the open-fronted storage box, especially if it is stacked.
- Ensure that the open-fronted storage box is not stored near sources of heat or naked flames.
- Ensure that the box is placed on a stable and firm surface to prevent it from tipping or falling over.
- Safety warning: Ensure safety and stability when stacking, note sharp edges of the steel sheet, risk of injury.
- Make sure that the box is securely closed during transport.
- Product is not suitable for children and not suitable for storing food.
- Read the instructions for use and safety information before use.
