Article Numbers: 883345, 883344, 883343, 883342, 883341

Safety Instructions:

- Ensure that heavy objects are not lifted above the recommended maximum load capacity of 120 kg.
- Only use the drop handle at the rear for support when lifting and take care not to exert excessive pressure on it.
- Ensure that the open-fronted storage box is stable or stacked to prevent it from tipping over or slipping.
- The product must not be overloaded (maximum load capacity: 120 kg).
- Ensure that the storage box is securely stacked when stacked with other boxes to prevent it from tipping over.
- The storage box should only be used on flat, stable surfaces to minimise the risk of it falling over.
- Avoid stacking more than the recommended number of open-fronted storage bins.
- Keep the storage rooms dry to prevent corrosion of the steel material.
- If the open-fronted storage box is damaged, please stop using it and replace it immediately.
- If the product is passed on, all instructions and safety information must be supplied with it.
- Caution: Sharp edges and corners of the product can cause injuries.
- Avoid storing sharp or harmful materials that could damage the walls of the open-fronted storage box.
- Keep the storage area free of obstacles to prevent falls when transporting the open-fronted storage box.
- The open-fronted storage box should only be loaded with heavy objects if it is placed on a stable and level surface.
