Article Numbers: 883372, 883371, 883370, 883369, 883368

Safety Instructions:

- Do not exceed the specified load capacity of 250 kg. Do not exceed the maximum weight (load capacity: 250 kg, load: 1850 kg).
- Avoid contact with sharp or pointed objects to prevent damage to the box.
- Wear protective clothing and gloves during transport and handling to avoid injury.
- Store the box in a safe place to prevent accidents caused by tipping over or falling.
- When stacking, observe the maximum height and do not stack on uneven surfaces to ensure stability.
- Place the box on a level surface to prevent it from slipping or tipping over.
- Do not use the box as a sitting or standing surface.
- The edges of the steel elements are sharp - risk of injury.
- Pay attention to corrosion protection in the vicinity of water.
- Securely fasten when transporting on roller conveyors.
- Bend your knees when lifting and carrying to avoid back injuries.
- Check load capacity before lifting heavy loads (max. 250 kg).
- Keep the box away from damp conditions to prevent rust formation.
- Use suitable lifting equipment for heavy loads.
- Check edges and surfaces regularly for damage.
- Only store on stable, level surfaces.
