Safety Instructions:

- The maximum load capacity of 150 kg must not be exceeded.
- Check product for damage before use, regular inspection recommended.
- The box should not be used near water sources or in water to avoid rust formation.
- Only use the box for its intended purpose in order to avoid safety risks.
- Keep the box away from children to avoid injury.
- Ensure that the box is stable and securely positioned on roller conveyors or flat surfaces to prevent it from tipping over.
- Use the drop handles as intended to prevent slipping or injury during transport.
- Do not use in the event of damage or improper use.
- Avoid risk of suffocation due to improper storage of the stacking box.
- Minimise the risk of crushing and injury if the stacking box is lifted or carried incorrectly; use the correct technique.
- The stacking box is not suitable for transporting hazardous substances.
- Ensure that surfaces are slippery to prevent tipping over during transport.
- Do not stack the stacking box improperly to ensure stability.
- Keep the box away from sharp objects to prevent damage.
- Keep the box away from naked flames and high temperatures to prevent material damage.
