Article Numbers: 883392, 883391, 883390, 883389, 883388

Safety Instructions:

- Not suitable for children under 3 years due to choking hazard from small parts.
- Only lift heavy loads up to the maximum load capacity of 60 kg.
- When using on roller conveyors, ensure that the transport conditions meet the requirements.
- Clear instructions and safety information are included for safe use and are easy for consumers to understand.
- The stacking box is designed for transporting heavy loads, therefore observe safety precautions when lifting and carrying.
- If the load capacity of 60 kg is exceeded, the structure of the stacking box may be jeopardised.
- Do not overload to avoid tipping over or collapsing.
- Pathafte edges and surfaces can cause injuries. Take care when handling.
- If the box is damaged, sharp steel could be exposed, which could also lead to injuries.
- Place on stable and level surfaces to avoid instability.
- Not suitable for the transport of live animals or foodstuffs.
- Do not use on sharp-edged or uneven surfaces to avoid damage.
- Ensure that the box is stable and securely stacked.
- Take care when lifting to avoid injury.
- Do not store near heat sources.
- Check for physical damage before use.
- There is a risk of injury if used incorrectly.
- Keep the product out of the reach of children.
- Avoid overloading, observe the maximum load capacity of 60 kg.
- Always use the drop handles to avoid injury when lifting.
- Secure the box during transport to prevent it from slipping or tipping over.
- Do not store near water or in damp environments to avoid corrosion damage.
- Use only for the intended purpose (transport and storage of goods).
