Article Numbers: 141514, 141513, 141512, 141511, 141510, 141509

Safety Instructions:

- Risk of suffocation due to loose parts; ensure that the chair is correctly assembled.
- Regular inspection and secure fastening of all screws and mechanisms to minimise risk.
- Warnings on the correct use and adjustment of the chair to avoid back injury, including the height-adjustable lumbar support for back problems.
- Armrests must be correctly adjusted to prevent tension in the neck and shoulder area.
- Observe the recommended maximum sitting time of 8 hours per day to avoid back problems.
- Maximum load capacity: 110 kg, do not exceed this weight limit.
- Double castors only suitable for carpeted floors; avoid hard floors to prevent the risk of falling.
- Protect the chair from excessive contact with water to prevent damage.
- The product may only be used by adults with the correct height and posture to avoid injury.
- Read the operating instructions carefully before use.
