Safety Instructions:

- Product can be heavy; be careful when moving.
- The product may fall over if not installed or used correctly; follow the installation instructions carefully.
- Avoid contact with sharp objects to prevent scratches on the surface.
- Steel frame is rustproof, but protects against extreme weather conditions.
- Check the plastic glides on the feet to avoid scratches on the floor.
- Risk of suffocation due to improper opening of the roller shutters.
- Ensure safe use of the cabinet in accordance with the instructions to avoid injury.
- No unauthorised use of keys or lock.
- Take care when adjusting the height to avoid crushing.
- Do not overload the cabinet and do not use it outside the recommended weight limits.
- Not suitable for children: Beware of choking hazard due to possible small parts.
- Protective measures required during use: Product may be damaged if handled improperly.
- Include suitable assembly and handling instructions for safe use.
