### Safety Instructions:

- Regularly check the electrical components for damage to avoid the risk of electric shock.
- Avoid overloading the desk to prevent stability problems; observe the maximum load capacity.
- Install the table on stable, level floors to prevent it from tipping over.
- Keep sensitive objects away from the table, especially when adjusting the height, to prevent damage.
- Children should not play with the table or operate it without supervision to prevent injury.
- Choking hazard due to small parts; not suitable for children under 3 years.
- Risk of electric shock if electrical components are used improperly; protection against moisture and proper installation required.
- Make sure that the table is stable and has no stability problems.
- When adjusting the height, make sure that there are no people or objects in the adjustment range to avoid injury.
- The electric height adjustment should only be operated by an adult.
- Ensure protection against crushing by moving parts of the height-adjustable mechanism.
- Users should read and follow the operating instructions carefully to ensure safe handling.
- Avoid contact of the electrical components with water or other liquids.
- Correct installation and proper use in accordance with the instructions are required.
- Observe the maximum adjustable height of 1290 mm to ensure appropriate use.
- Keep the table away from heat sources to prevent damage to the table top.
- Regularly check the stability and condition of the table frame.
- Take care with the electric height adjustment: make sure that no items of clothing or body parts are trapped.
- Only qualified personnel should be used for repairs.
- Ensure that the table is not overloaded; observe the maximum load.
- Keep the table away from children and pets to avoid injury.
- Ensure regular maintenance of the electrical components by qualified personnel.
- Ensure stable positioning of the table to prevent it from tipping over.
