Safety Instructions:

- Ensure stable construction of the roller shutter cabinet to prevent it from tipping over.
- Do not exceed the recommended shelf load of 50 kg to avoid overloading.
- Keep parts and small parts away from children to avoid injury or choking hazard.
- Do not use the cabinet improperly, in particular do not use it as a ladder.
- Regular checking of the stability of the rotary cylinder lock and metal parts is recommended.
- Ensure that the door cannot be opened accidentally by children.
- Select a stable and level surface for the cabinet structure to prevent it from tipping over.
- Ensure safe handling through simple operation and compliance with the installation instructions.
- Watch out for sharp edges and points, reduce if necessary.
- Regularly check the normal functionality of doors and locks for safe use.
- Keep the cabinet away from heat sources and direct sunlight to prevent material damage.
- Take suitable protective measures for cabinets in the vicinity of children.
- Dispose of defective parts properly in accordance with local disposal regulations for steel products.
