Safety Instructions:

- Ensure that the product has been designed and manufactured in accordance with the applicable European standards.
- Provide clear instructions and safety information in easy-to-understand language.
- The manufacturer's contact details must be indicated on the product or its packaging.
- Ensure that the integrity of the product is guaranteed during transport.
- Consider the possibility of responsible disposal of the product.
- The cabinet must be stable and securely mounted.
- Distribute items evenly on the shelves to ensure stability. If possible, do not place heavy objects on the top shelves.
- Children should not come into unsupervised contact with the cabinet.
- Make sure that the cylinder lock key is out of the reach of children.
- Regularly check the cabinet components for damage or wear.
- Check plastic glides regularly for functionality to prevent damage to the floor.
- Please follow the instructions provided when assembling and fitting to avoid injury.
- Only use the cabinet for its intended purpose.
- Make sure that all doors and drawers are properly closed to prevent them from tipping over.
- Only use this cabinet indoors, as moisture and the effects of the weather can damage the materials outdoors.
