Please note the technical data of the products!

Article Numbers: 656052, 656051, 656044

Safety Instructions:

- If used incorrectly, there is a risk of injury from body parts becoming trapped in the louvre doors.
- Parts inaccessible to children must be observed during assembly and use in order to minimise the risk of suffocation.
- Before use, all parts should be checked for damage to ensure that they are safe to use.
- The product must be placed on a level surface to avoid stability risks.
- The maximum load capacity of the shelves (50 kg) must not be exceeded.
- Set up securely to prevent tipping over.
- Plastic parts can break and cause injuries if used incorrectly.
- Only use suitable cleaning agents for maintenance and care so as not to damage the surface.
- Do not overload the cabinet so as not to exceed the load capacity.
- Avoid contact with water or other liquids to prevent rust, especially with steel structures.
- Make sure that the doors of the roller shutter cabinet are securely closed to avoid the risk of cuts.
- Regularly check the security of the keys and the rotary cylinder lock to prevent theft.
- Avoid using aggressive cleaning agents on the baked-on coating to prevent damage.
