Safety Instructions:

- The maximum load capacity of the cabinet of 50 kg must not be exceeded.
- Plastic glides are installed to protect the floor; make sure they are intact.
- Protect the product from moisture and wetness.
- When installing, ensure that the cabinet is stable and stands on a stable, level surface to prevent it from tipping over.
- Do not use aggressive chemicals for cleaning.
- Open and close the doors carefully to prevent damage.
- Read all installation instructions carefully before use.
- The manufacturer's instructions must be followed during installation and set-up.
- Before use, check that all parts are present and undamaged.
- Take additional measures to ensure that the roller shutter cabinet cannot be turned into a hazard by children.
- Take care not to store heavy objects above the recommended load limits (max. 50 kg per shelf).
- Avoid blocking the roller shutter mechanism to minimise the risk of injury.
- Only use the cabinet in accordance with the intended applications in order to avoid safety risks.
- Always keep the lock closed to prevent unauthorised access.
- Ensure that small parts are kept out of the reach of children.
