Safety Instructions:

- Ensure that children do not come into contact with moving parts of the cabinet.
- The cabinet must be placed on a stable and level surface to prevent it from tipping over.
- Avoid using the cabinet in damp environments or in swimming pools to prevent corrosion and rust formation.
- The safety information and instructions must be accessible, understandable and detailed enough for all users to ensure correct use of the height adjustment mechanisms and to prevent injuries.
- Keep the cabinet doors away from body parts or other objects when closing to avoid injury.
- Check the functionality of the lock regularly to prevent unauthorised access.
- Suitable for indoor use. Not designed for outdoor use.
- Ensure that the roller shutter is not overloaded to avoid the risk of breakage.
- Provide safety information regarding the use of the aluminium lock.
