Safety Instructions:

- Please use the cabinet in accordance with the manufacturer's instructions and ensure that the product is placed on a stable surface.
- Secure the cabinet to the wall to prevent it from tipping over.
- Keep small children away from the door remote control to minimise the risk of crushing.
- Avoid overloading the shelves beyond the maximum load capacity of 50 kg. Bear in mind the higher weight of the wardrobe when using shelves.
- The height of the shelves should only be adjusted by adults.
- If the doors or the lock are damaged or worn, stop using the product and contact the manufacturer.
- The door mechanisms must not be blocked to avoid injury.
- The integrated lock contains safety information for safe handling.
- The plastic glides should be checked regularly to prevent damage to the floor.
- Carefully follow the instructions for correct assembly and use of the product. Watch out for sharp edges when assembling.
- Take particular care when using the doors due to the flexible slats.
- Ensure that the stability of the cabinet is guaranteed by correct assembly.
- Store out of the reach of children to avoid possible injury.
