### Safety Instructions:

- Observe safety measures when using the cabinet to avoid injury.
- Carry out assembly and installation in accordance with the enclosed instructions to ensure stability.
- Position the product securely on a level surface to prevent it from tipping over.
- Do not exceed the maximum load of 50 kg on the shelves to prevent breakage.
- When using lockable doors, keep the key in a safe place to prevent unauthorised access.
- Ensure that all parts are correctly assembled and that assembly is carried out in accordance with the instructions to avoid injury.
- Regularly check the stability and safety of the cabinet to avoid any hazards.
- Take care when using in areas where there is a risk of falling over or breakage, especially in the vicinity of children.
- In the event of a safety recall, take immediate action to ensure the safety of consumers.
- Do not allow children to use the cupboard as a toy.
- Avoid overloading the shelves beyond the maximum load capacity of 50 kg.
- We recommend the use of a suitable tool for assembly.
