Safety Instructions:

- Take care when using near water or in damp environments as there is a risk of electric shock and the electrical components may be damaged. The product is not suitable for use in damp or wet environments.
- Supervise use by children to ensure that they can handle the product safely. Keep out of the reach of children to avoid the risk of suffocation and electrical hazards.
- Caution: Choking hazard due to small parts if handled incorrectly.
- The product is heavy, please ensure that it is placed on stable surfaces to avoid tipping over.
- The touch dimmer could malfunction if it is operated with excessive force. It should only be used by adults to avoid injury.
- There is a risk of electric shock if the product is used improperly or damaged. Risk of electric shock due to improper use of the electrical components.
- Please note that the light is equipped with a PIR sensor that reduces the light output in the event of prolonged inactivity. Do not touch the permanently installed LEDs and the PIR sensor during operation.
- The lamp must not be blocked or covered to avoid the risk of overheating. Keep the motion sensor unobstructed to ensure correct functionality.
- Only use the appliance in accordance with the manufacturer's instructions. Disconnect the appliance from the power supply before handling.
